

Mid-Island Woodworkers' Guild

"Now, we ARE ONE"

Mid-Island Woodworkers Guild

Rationale:

MIWG can address some woodworking issues in the mid-Island region:

1. Create a central Island, community-based organization for woodworkers;
2. Encourage Community Recreation programs for teaching woodworking skills;
3. Provide an organization whereby woodworkers can gather to share their experiences, knowledge, skills and crafts;
4. Offer mentoring programs that would assist new woodworkers in skill-development;
5. Provide possible sources of tool-exchange and supply-purchase options;
6. Share and recycle wood resources from the community;
7. Offer local charitable support through provision and distribution of craftsmanlike products;
8. Encourage young people to continue participation after High School
